Spiritual Training  
to Harmonize  
Heaven & Earth

# Spiritual Retreat Tulum, Mexico

**November 9-17, 2024**

Join us for an innovative 9 day spiritual retreat and evolutionary journey in November 2024, bringing together energy healers, Indigenous Spiritual Servers, skillful teachers, and truth seekers in one of the most powerful energy centers on the planet! The healing waters of the tropical sea, Mayan ruins, and sacred cenotes all provide an amazing environment to develop spiritually along your path.

As a physical experience, our **Travel Journey** and integrated group tours will bring you to magical sacred sites and hidden chambers in the Riviera Maya (all photos here are real and not photoshopped.)

As a spiritual experience, our teachers and guides will offer daily workshops and practical tools to help you develop or enhance skills in **Journeying in Consciousness**, to access information from the Universe, expand your inner vision, and live a mystical life.

Mystic Journeys offers pragmatic idealism, synergistic training in various spiritual practices and traditions, such as: enhancing our psychic abilities, authentic Indigenous Ancestral cultural teachings, sound healing, a Tibetan meditation technique, engaging the body's vitality through Qi Gong, finding our path using astrology, manifesting our dreams into reality, and working with the 7 Sacred Flames, Angels, and Ascended Masters along our souls' **Ascension Journey** from selfish ego to selfless service.

By the end of an awe-inspiring week, the guided meditations and energetic tools offered will help you live more fully in harmony and alignment with your highest purpose, effortlessly and with increased synchronicity. Our retreat will coincide with the 11:11 portal, an opportunity to realign our paths with purpose.

Each person on our team comes from individual lifelong **Journeys as Mystics**, drawn towards various spiritual and religious traditions while seeking truth and being of service. Together, we can all share a common identity as Mystics, and a growing open, interfaith, and supportive community.

We are creating the spiritual change that we seek in the world, with integrity, and the shared intention of doing our parts to help turn the collective wheel of humanity towards the Golden Age. With wisdom and tools gained along the way, in November, we invite you to join us!
